

Rafael Moreira Ramos de Rezende

FULL-STACK DEVELOPER & DESIGNER

Hello, I am a Full Stack Developer from Belo Horizonte, Minas Gerais. I hold a degree in Computer Science and currently work at Babita as a Full Stack Developer. In addition, I handle support, maintenance, and development tasks, and I also participate in training sessions, presentations, and general meetings—both strategic and related to business rules as well as system discussions. My main focus is to gain knowledge, broaden my horizons, refine my skills, and grow as a professional by developing more applications, both as a Freelancer and for companies. My expertise includes Linux, TypeScript, Node.js, React Native, Python, SQL and NoSQL, Postgres, Oracle, REST APIs, among others.

EXPERIENCE

Babita, Belo Horizonte

FullStack Developer

Jul 2023 - Present

Rádio Inconfidência, Belo Horizonte

IT Intern

Feb 2022 - Jun 2023

Igreja São Pedro, Belo Horizonte

Freelance Designer (Volunteer Work)

Jun 2021 - Present

Project: **São Pedro Church Website V2** ([Link do projeto](#))

- Mobile application built with React Native that provides daily liturgy, Bible books, and other information about the community, through an API developed with Node.js.
- Technologies: React · API · Web Scraping · Firebase · Express.js · Node.js · GitHub · Figma

Project: **Portfólio V3**([Link do projeto](#))

- A project aimed at promoting my profile as a developer, while also providing a brief overview of my career and skills.
- Technologies: JavaScript · Figma · Web · GitHub

Project: **Resellers** ([Link do projeto](#))

- The goal was to create a complete solution where resellers could track purchases and exchanges (based on store receipts), manage finances with card and check due date control, and conveniently check promotions and product launches. Developed at Babita.
- Technologies: React · Node.js · PostgreSQL · Oracle · Linux
